This monthly report is an attempt to provide you with mathematical information about the current real estate market in the Hi Desert communities of Yucca Valley, Joshua Tree, Twentynine Palms, and surrounding areas. I do my best to keep my opinion out of the information. If you want my opinion, just ask! I also post market information on my Facebook Fan Page (www.facebook.com/desertrealestate). All information included on this Update is gathered from the California Regional Multiple Listing Service (CRMLS) which is the predominate service in the area. **Numbers in parenthesis represent change from last month.**

MARKET CONDITIONS

I am sharing with you the Altos Market Trend Report. This is a weekly report provided to me that can shed light on the health of our market. I use the same week of each month that I prepare my Monthly Market Update to help inform you of the trends in our market. The Market Action Index (MAI) answers the question "How's the Market?" by measuring the current rate of sale versus the amount of the inventory. Index above 30 implies Seller's Market conditions. Below 30, conditions favor the buyer. Watch for changes in MAI. If the MAI resumes its climb, prices will likely follow suit. If the MAI drops consistently or falls into the Buyer's zone, watch for downward pressure on prices.

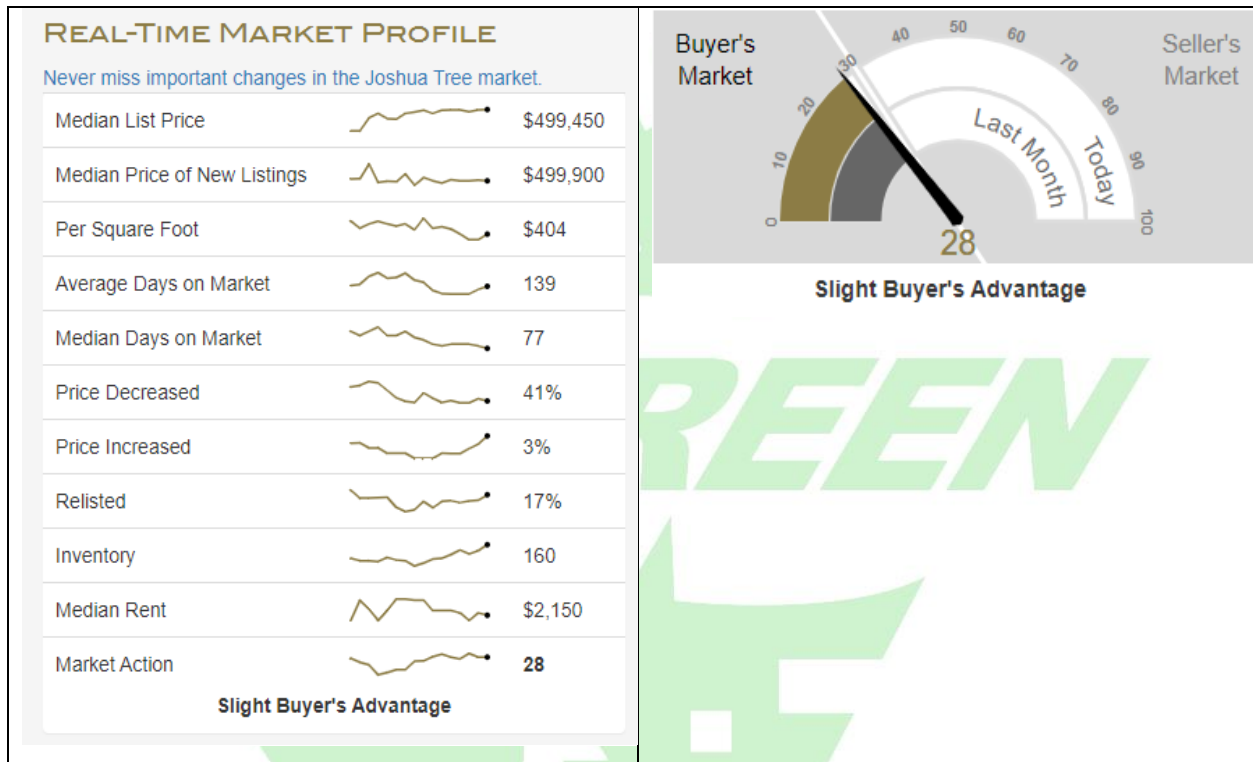

YUCCA VALLEY:

This week the median list price for Yucca Valley, CA 92284 is \$460,000 with the market action index hovering around 33. This is about the same as last month's market action index of 33. Inventory has increased to 183. In the last few weeks, the market has achieved a relative stasis point in terms of sales to inventory. However, inventory is sufficiently low to keep us in the Seller's Market zone so watch changes in the MAI. If the market heats up, prices are likely to resume an upward climb.

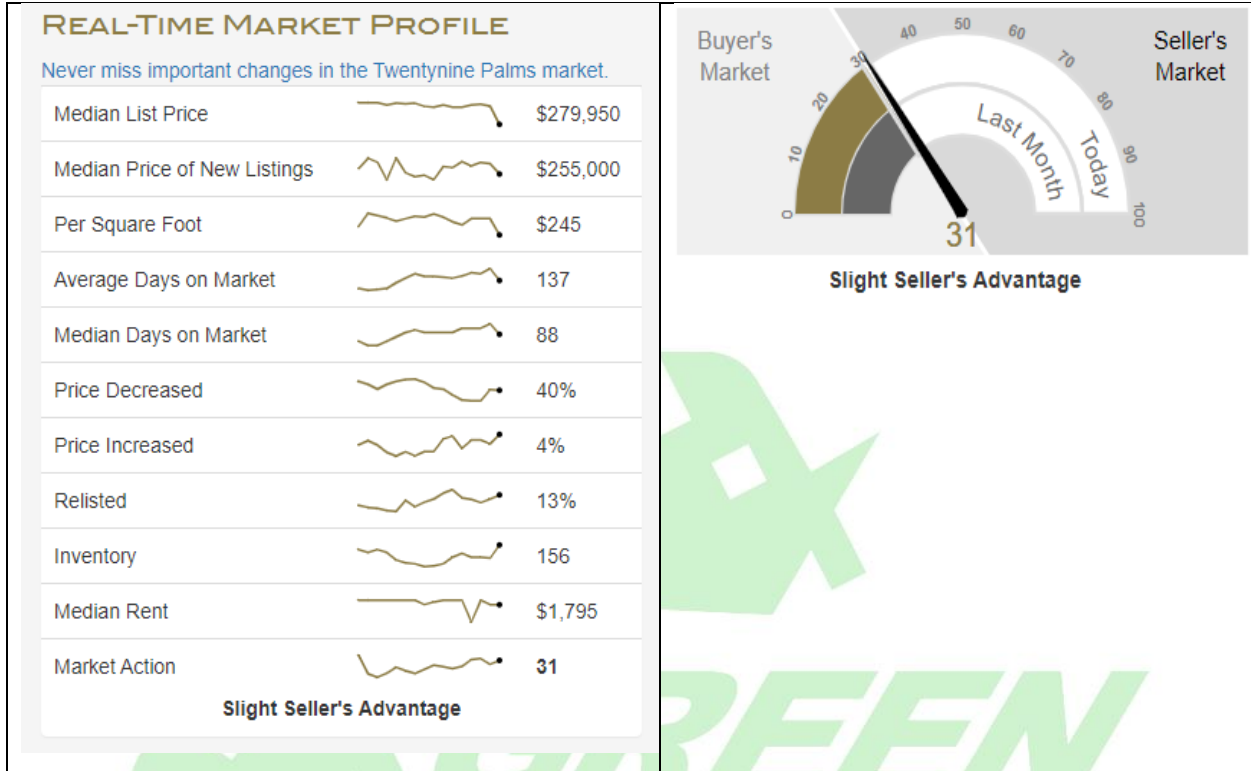

JOSHUA TREE:

This week the median list price for Joshua Tree, CA 92252 is \$499,450 with the market action index hovering around 28. This is about the same as last month's market action index of 28. Inventory has increased to 160. The market has shown some evidence of slowing recently. Both prices and inventory levels are relatively unchanged in recent weeks. Watch the Market Action Index for changes as it can be a leading indicator for price changes.

TWENTYNINE PALMS

This week the median list price for Twentynine Palms, CA 92277 is \$279,950 with the market action index hovering around 31. This is about the same as last month's market action index of 31. Inventory has increased to 156. Home sales continue to outstrip supply and the Market Action Index has been moving higher for several weeks. This is a Seller's market so watch for upward pricing pressure in the near future if the trend continues.

If you would like to better understand the math and dynamics of our local market, text, email, or call and let's discuss your questions and concerns. I can find a winning strategy for you in any market.

Sincerely,

Bob Armstrong
